OFFICE OF ATTORNEY GENERAL 2018 TAX CHARTS

OFFICE OF THE ATTORNEY GENERAL 2018 TAX CHARTS

At the time of promulgation of the 2018 Tax Charts, the United States Congress was considering significant changes to the Internal Revenue Code. If the Internal Revenue Code is amended by Congress, then the Office of the Attorney General will promulgate revised 2018 Tax Charts.

Pursuant to [§ 154.061\(b\) of the Texas Family Code](#), the Office of the Attorney General of Texas, as the Title IV-D agency, has promulgated the following tax charts to assist courts in establishing the amount of a child support order. These tax charts are applicable to employed and self-employed persons in computing net monthly income.

INSTRUCTIONS FOR USE

To use these tables, first compute the obligor's annual gross income. Then recompute to determine the obligor's average monthly gross income. These tables provide a method for calculating "monthly net income" for child support purposes, subtracting from monthly gross income the social security taxes and the federal income tax withholding for a single person claiming one personal exemption and the standard deduction.

Thereafter, in many cases the guidelines call for a number of additional steps to complete the necessary calculations. For example, [§§ 154.061 - 154.070](#) provide for appropriate additions to "income" as that term is defined for federal income tax purposes, and for certain subtractions from monthly net income, in order to arrive at the net resources of the obligor available for child support purposes. If necessary, one may compute an obligee's net resources using similar steps.

**EMPLOYED PERSONS
2018 TAX CHART**

Monthly Gross Wages	Social Security Taxes		Federal Income Taxes***	Net Monthly Income
	Old-Age, Survivors and Disability Insurance Taxes (6.2%)*	Hospital (Medicare) Insurance Taxes (1.45%)*, **		
\$100.00	\$6.20	\$1.45	\$0.00	\$92.35

Footnotes to Employed Persons 2018 Tax Chart:

*An employed person not subject to the Old-Age, Survivors and Disability Insurance/Hospital (Medicare) Insurance taxes will be allowed the reductions reflected in these columns, unless it is shown that such person has no similar contributory plan such as teacher retirement, federal railroad retirement, federal civil service retirement, etc.

** When income exceeds \$200,000.00 per year there is an additional Medicare Tax of 0.9%. The additional Medicare Tax does not apply to any values shown on this chart because the highest gross income included is \$15,000.00 per month (\$180,000.00 per year).

*** These amounts represent one-twelfth (1/12) of the annual federal income tax calculated for a single taxpayer claiming one personal exemption (\$4,150.00, subject to reduction in certain cases, as described below in this footnote) and taking the standard deduction (\$6,500.00).

For a single taxpayer with an adjusted gross income in excess of \$266,700.00, the deduction for the personal exemption is reduced by two percent (2%) for each \$2,500.00 or fraction thereof by which adjusted gross income exceeds \$266,700.00. The reduction is completed (i.e., the deduction for the personal exemption is eliminated) for adjusted gross income in excess of \$389,200.00. In no case is the deduction for the personal exemption reduced by more than 100%. The phase out of the Personal Exemption does not apply to any values shown on this chart because the highest income included is \$15,000.00 per month (\$180,000.00 per year).

**** The amount represents one-twelfth (1/12) of the gross income of an individual earning the federal minimum wage (\$7.25 per hour) for a 40-hour week for a full year. \$7.25 per hour x 40 hours per week x 52 weeks per year equals \$15,080.00 per year. One-twelfth (1/12) of \$15,080.00 equals \$1,256.67.

***** For annual gross wages above \$128,400.00, this amount represents a monthly average of the Old-Age, Survivors and Disability Insurance tax based on the 2018 maximum Old-Age, Survivors and Disability Insurance tax of \$7,960.80 per person (6.2% of the first \$128,400.00 of annual gross wages equals \$7,960.80). One-twelfth (1/12) of \$7,960.80 equals \$663.40.

***** This amount represents the point where the monthly gross wages of an employed individual would result in \$8,550.00 of net resources. [Texas Family Code section 154.125](#) provides "The guidelines for the support of a child in this section are specifically designed to apply to situations in which the obligor's monthly net resources are not greater than \$7,500 or the adjusted amount determined under Subsection (a-1), whichever is greater." Effective September 1, 2013 the adjusted amount determined under Subsection (a-1) is \$8,550.00.

Footnotes to Self-Employed Persons 2018 Tax Chart:

*Determined without regard to [Section 1402\(a\)\(12\) of the Internal Revenue Code](#) of 1986, as amended (26 U.S.C. § 1402(a)(12)) (the "Code").

** In calculating each of the Old-Age, Survivors and Disability Insurance tax and the Hospital (Medicare) Insurance tax, net earnings from self-employment are reduced by the deduction under [Section 1402\(a\)\(12\)](#) of the Code. The deduction under [Section 1402\(a\)\(12\)](#) of the Code is equal to net earnings from self-employment (determined without regard to [Section 1402\(a\)\(12\)](#) of the Code) multiplied by one-half (1/2) of the sum of the Old-Age, Survivors and Disability Insurance tax rate (12.4%) and the Hospital (Medicare) Insurance tax rate (2.9%). The sum of these rates is 15.3% (12.4% + 2.9% = 15.3%). One-half (1/2) of the combined rate is 7.65% (15.3% x 1/2 = 7.65%). The deduction can be computed by multiplying the net earnings from self-employment (determined without regard to [Section 1402\(a\)\(12\)](#) of the Code) by 92.35%. This gives the same deduction as multiplying the net earnings from self-employment (determined without regard to [Section 1402\(a\)\(12\)](#) of the Code) by 7.65% and then subtracting the result.

For example, the Social Security taxes imposed on monthly net earnings from self-employment (determined without regard to [Section 1402\(a\)\(12\)](#) of the Code) of \$2,500.00 are calculated as follows:

(i) Old-Age, Survivors and Disability Insurance Taxes:

$$\$2,500.00 \times 92.35\% \times 12.4\% = \$286.29$$

(ii) Hospital (Medicare) Insurance Taxes:

$$\$2,500.00 \times 92.35\% \times 2.9\% = \$66.95$$

*** When income exceeds \$200,000.00 per year there is an additional Medicare Tax of 0.9%. The additional Medicare Tax does not apply to any values shown on this chart because the highest gross income included is \$15,000.00 per month (\$180,000.00 per year).

**** These amounts represent one-twelfth (1/12) of the annual federal income tax calculated for a single taxpayer claiming one personal exemption (\$4,150.00, subject to reduction in certain cases, as described below in this footnote) and taking the standard deduction (\$6,500.00).

In calculating the annual federal income tax, gross income is reduced by the deduction under Section 164(f) of the Code. For example, monthly net earnings from self-employment of \$8,500.00 times 12 months equals \$102,000.00. The Old-Age, Survivors and Disability Insurance taxes imposed by Section 1401 of the Code for the taxable year equal \$9,796.49 (\$102,000.00 x .9235 x 12.4% = \$11,680.43). The Hospital (Medicare) Insurance taxes imposed by Section 1401 of the Code for the taxable year equal \$2,731.71 (\$102,000.00 x .9235 x 2.9% = \$2,731.71). The deduction under Section 164(f) of the Code for 2014 is equal to \$7,206.08 ((\$11,680.43 x 0.5) + (\$2,731.72 x 0.5) = \$7,206.08).

For a single taxpayer with an adjusted gross income in excess of \$266,700.00, the deduction for the personal exemption is reduced by two percent (2%) for each \$2,500.00 or fraction thereof by which adjusted gross income exceeds \$266,700.00. The reduction is completed (i.e., the deduction for the personal exemption is eliminated) for adjusted gross income in excess of \$389,200.00. In no case is the deduction for the personal exemption reduced by more than 100%. The phase out of the Personal Exemption does not apply to any values shown on this chart because the highest income included is \$15,000.00 per month (\$180,000.00 per year).

***** For annual net earnings from self-employment (determined with regard to [Section 1402\(a\)\(12\)](#) of the Code) above \$128,400.00, this amount represents a monthly average of the Old-Age, Survivors and Disability Insurance tax based on the 2018 maximum Old-Age, Survivors and Disability Insurance tax of \$15,921.60 per person (12.4% of the first \$128,400.00 of net earnings from self-employment (determined with regard to [Section 1402\(a\)\(12\)](#) of the Code) equals \$15,921.60). One-twelfth (1/12) of \$15,921.60 equals \$1,326.80.

***** This amount represents the point where the monthly net earnings from self-employment of a self-employed individual would result in \$8,550.00 of net resources. [Texas Family Code section 154.125](#) provides "The guidelines for the support of a child in this section are specifically designed to apply to situations in which the obligor's monthly net resources are not greater than \$7,500 or the adjusted amount determined under Subsection (a-1), whichever is greater." Effective September 1, 2013 the adjusted amount determined under Subsection (a-1) is \$8,550.00.
