**Minimum Standard Health Protocols for
Court Proceedings in Bexar County
December 17, 2021**

To ensure the health and safety of all courtroom participants and visitors entering the Bexar County Judicial Complex, the Local Administrative Judge, Ron Rangel, promulgates and adopts the following Minimum Standard Health Protocols that will apply in all courts in Bexar County. The Supreme Court's most recent Emergency Order (Docket No. 21-9145) is in effect until February 1, 2022. All judges are mandated to follow these Protocols. While any judge may have more stringent standards in their courtroom, no judge may have less stringent standards.

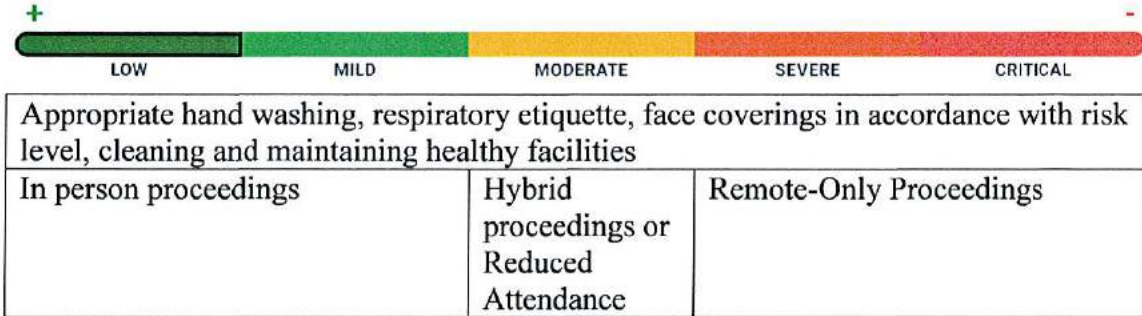

Generally

1. In addition to the instant Minimum Standard Health Protocols, all Bexar County trial courts must also comply with the Emergency Orders issued by the Supreme Court.
2. The Local Administrative Judge will communicate with local health authorities and will adjust these Protocols as needed in accordance with local health authority guidance, as required to facilitate court proceedings.
3. Although in person proceedings are allowed, courts are encouraged to conduct proceedings remotely, (such as by teleconferencing, videoconferencing, or other means) where doing so would improve access to justice.
4. Upon request and with good cause shown, judges must allow any court participant — other than a juror — to participate remotely in a proceeding, subject to constitutional limitations.
5. Trial courts may conduct in-person proceedings in accordance with the schedule approved by the Local Administrative Judge, as long as those proceedings comply with the in-person schedule for each court group designed to minimize the number of individuals coming into the Bexar County Judicial Complex during periods of "Moderate Transmission" or higher.
6. In accordance with the Office of Court Administration's Best Practices for Court Processes, the Court adopts the metric below based on the transmission rate in the City of San Antonio. If the City moves to "Moderate Transmission" or above, jury trials will continue only after conferring with and gaining the approval of the local health authority.

Face Coverings and Social Distancing

1. If the City is in "Low, Mild or Moderate Transmission," all unvaccinated individuals are strongly encouraged to wear face coverings.
2. If the City is in "Moderate, Severe or Critical Transmission", all individuals entering the courthouse complex for court business are required to wear face coverings.
3. If the City is in "Mild or Moderate Transmission" social distancing of 3 feet is required for all in person proceedings.
4. If the City is in "Low Transmission" social distancing where possible is recommended.
5. If the City is in "Moderate, Severe or Critical Transmission" social distancing of 6 feet is required for all in person proceedings.

City of San Antonio Metric:

You can find current Progress and Warning Indicators [here](#).

Judges and Court Staff Health

1. Bexar County Judges and court staff who may perform their essential job functions remotely may telework whenever possible. Courts should take precautions to ensure judges and court staff do not enter the courthouse when there is a likelihood that they may have COVID-19 or have been recently exposed to COVID-19.
2. In an effort to protect judges and court staff from contracting COVID-19, unvaccinated judges and court staff are strongly encouraged to practice social distancing and use appropriate hygiene methods at all times.
3. All trial court benches will be well-supplied with hand sanitizer and surface cleaning materials. Physical barriers such as plexiglass or stanchions are available in each courtroom in front of the well to ensure social distancing for those unvaccinated individuals.
4. Each courtroom and court offices will be well equipped with cleaning products for court staff to sanitize the courts.

Vulnerable Populations

1. Individuals over age 65 and with serious underlying health conditions, such as high blood pressure, chronic lung disease, diabetes, obesity, asthma, and compromised immune systems (e.g., chemotherapy recipients, etc.) are considered to be vulnerable populations.
2. All orders setting hearings, docket notices, summons, and other communications notifying individuals of in-person appearances must include information explaining how vulnerable populations may contact the court to identify themselves as such and to request appropriate accommodations. A notice with this information will be posted on the courts' websites and in conspicuous locations throughout the Bexar County Courthouse Complex.
3. Vulnerable populations who are scheduled for court will be accommodated with the opportunity to appear for hearings remotely or, in the alternative, provided a continuance upon notice and good cause to the court in advance of the scheduled hearing date.

Hygiene

1. Hand sanitizer dispensers will be at the entrances to each Judicial Complex building, outside of elevators on each floor, outside of each courtroom and court offices, and outside each bathroom.
2. Tissues and trash receptacles will be near the door of each courtroom, at counsel tables, at the witness stand, on the judges' benches, and in the hallways.

Screening

Inmates being transported from the jail to a Judicial Complex building will be screened for COVID-19 symptoms and have their temperature taken prior to transport. Inmates with symptoms or a temperature equal to or above 99.6°F will not be transported to a court building. Inmates known to be COVID+ by screening at the jail shall not be transported to the court building until ten days have passed since their last positive COVID-19 test. CDC criteria for ending isolation of a COVID-19+ person must be met before transport to court building (i.e., at least 72 hours without fever, AND ten [10] days since the onset of symptoms AND improved symptoms).

Cleaning

1. Cleaning staff will clean the common areas of each court building regularly.
2. Cleaning staff will clean the courtrooms at the end of each day that the courtroom is used.
3. Cleaning staff and court staff should have cleaning supplies shown to be effective on the SARS-Cov2 virus.

Ventilation

Bexar County Facilities have been equipped as indicated below to ensure the health and safety of those who enter the courthouse complex:

1. HVAC settings are now increased to 100% fresh air intake to dilute respiratory droplets in the buildings, which allows for more air change cycles per hour.
2. 74 freestanding HEPA air scrubbing units, which can be deployed during a trial and jury selection.
3. UV-C lighting installed in all the air handlers in County owned buildings.
4. Thermal cameras to ensure temperature checks at each building entrance.
5. Self-screening kiosks at some public entrances.
6. Plexiglass installed between workspaces where social distancing is not possible.
7. Electrostatic spraying and sanitization of spaces after in-person proceedings.
8. Touchless door openers installed at public entrances.
